### STILLWATER CONTINUES COVID-19 VACCINATION CLINIC

**August 18, 2021 – Columbus, Montana.** Stillwater Billings Clinic COVID-19 Vaccination Clinics continue to take place each Friday, offering both Johnson & Johnson and Moderna vaccines. On August 20 and 27, COVID-19 Vaccination hours will be from 9 a.m. to 4:00 p.m.

Upon recommendation by the State of Montana's public health officials, counties across the state are working to vaccinate as much of the eligible population as possible. Both Johnson & Johnson and Moderna vaccines are available.

"At this time, we will continue to vaccinate as many people in our community as we can. The delta variant strain is known to be more infectious than other strains and has spread rapidly. The most responsible thing we can do is to work to get people vaccinated as quickly as possible," says Natasha Sailer, Stillwater County Public Health Director.

COVID-19 Vaccination Clinics continue to be held each Friday at Stillwater Billings Clinic and available to individuals 18 years of age and older. If you will be receiving your vaccination at SBC, please wear a short sleeved shirt, bring your insurance card, and plan to wait 15 minutes post-vaccination so that our COVID Vaccination Team can monitor for any adverse reactions.

If you would like to be vaccinated and/or have questions regarding the COVID-19 vaccines, please contact Stillwater Billings Clinic at 322-1000 and ask to speak with a member of the COVID Vaccination Team.
